EXPERIENCES

Abu Dhabi, UAE

June 2022 –

Present

Researcher

Center for Biotechnology (BTC) | KU

With AI on bio-related matters as research being my focus at the BTC, I also train under supervised staff members on bio-med-related activities, e.g., the processes of RNA extraction on wastewater (filtration, extraction, PCR analysis), the protocols of DNA extraction from blood and faeces samples, the use of bio-devices such as pipettes. I also assist the bioinformatics team on algorithm-based problems.

Abu Dhabi, UAE

June 2022 –

August 2022

Data Science Intern

Emirates ICT Innovation Center (EBTIC) | KU

Covered ML/DL principles in depth, such as ANNs, CNNs, GANs, ensemble learning, and other AI principles. Developed a GAN model for binary classification.

Al Ain, UAE

January 2021 –

April 2021

Software Engineer Intern

National Space Science & Technology Center | UAEU

Developed a desktop (GUI) simulation software, using Python and Arduino, that acts as a replica to the telecommand/telemetry process in the satellite with UART as the communication protocol. Provided presentations at NSSTC. Contributed with NSSTC's "GNSSaS Weekly Project Meeting" to follow up with the entire team's progress and to share updates on my development status.

Al Ain, UAE

September 2017 –

November 2017

Peer Tutor

Tutorial Center | UAEU

Assisted students in English language mainly in Speaking, Writing, and Grammar. Helped students prepare for English tests (IELTS, UGRU English levels 1-4).

AWARDS

June 2022

Member of the Elites. One of the 32 (1%) selected, by KU and National Service & Reserve Authority (NSRA), in the 17th Batch of UAE national service across the country to do research and enhance our research skills at KU.

December 2020

Winner of Fall 2020 Best Senior Project Contest, UAEU. Out of the 39 senior projects to be presented on the Fall of 2020, my team and I were both nominated and won the first place on the Fall 2020 Best Senior Project Contest.

Fall 2018 - Fall 2020

Dean's List: Maintained a GPA of 3.6+

CERTIFICATIONS

September 2022

IELTS (Academic) Band 7.5

August 2022 – 2028

Biomedical RCR from [CITI Program](#)

November 2021

Python Certificate from [Hackerrank](#).

April 2018

Basic Level Tutor: National Tutoring Association (NTA)

SAMPLE VOLUNTEERING & EXTRACURRICULARS

March 2018 –

April 2018

Volunteered for some days on a vet clinic on a research project to raise awareness on the common ailments found in cats and dogs in the UAE. [Link to project](#).

April 2018

Took part in the 4th UAEU Annual Undergraduate Student Research Conference 2018 to share our research based on the prevalence on diabetes in the UAE.

EDUCATION

U.A.E. University (UAEU)

Al Ain, UAE | May 2021

Bachelor of Science in Computer Engineering

Major GPA: 3.68

Cumulative GPA: 3.51

SKILLS

PROGRAMMING LANGUAGES: -

C++, Python, Rust, Arduino, Java, Verilog, Embedded C

AI/ML/DL TECHNIQUES: -

Linear Regression/Classification, Ensemble Learning (trees), ANNs, CNNs, GANs, Computer Vision (OpenCV)

WEB-DEVELOPMENT TOOLS: -

HTML, CSS, JavaScript, Bootstrap, WordPress, Django, GitHub Pages

IOT PLATFORM: -

Thinger.io

OPERATING SYSTEMS: -

Windows OS, MacOS, Linux

ELECTRICAL/HARDWARE: -

Digital Design, Logic Gates, Arduino Boards,

Wiring, Electrical Components

NETWORKING: -

IPv4, TCP, UDP, UART, IP Classes, Subnetting

SOFTWARE DESIGNING TOOLS: -

Google Colab, VS Code, PyCharm, MS Visual Studio, MS Office, Tinkercad, Packet Tracer, NI Multisim, iMovie, Tkinter

SAMPLE PROJECTS

CUSTOM VANILLA GAN MODEL

Developed a Vanilla-based GAN model suitable and efficient for binary classification: to generate a proper training set for ML-based classifier.

SCOOTER INCIDENT REPORTING SYSTEM (SENIOR PROJECT)

Designed an attachable device to an e-scooter whose duty is to detect a fall, collision, or a crash from the e-scooter and send the data to an IoT platform via Wi-Fi.

HOTEL RESERVATION WEBSITE

Built a full-stacked website using frontend tools (HTML, CSS, JS) with PHP as the backend and MySQL as the database.
